

Honor® Show Feed

Honor® Show Fitter's Edge®

Honor® Show Fitter's Edge® feed is a textured sweet feed that contains moderately high energy for growth and development. This 14% protein feed can be fed to heifers and growing/developing steers or to finishing steers when fed with High Octane® Power Fuel®. It can also be followed by feeding Honor® Show Full Range® or Honor® Show Finishing

Touch®. Fitter's Edge® feed is supported by Purina's knowledge, experience and research.

Honor® Show Full Range™

Honor® Show Full Range™ feed is designed to help promote feed intake, bloom and fill in cattle fed for show. Full Range™ feed can be fed throughout the entire feeding period to young calves being prepped for sale as well as steers and heifers being fed for exhibition. It's never too early to start thinking Winner's Circle. Honor® Show Full Range™ feed gives you the flexibility you need from start to finish to succeed in the ring.

Honor® Show Finishing Touch®

Honor® Show Finishing Touch® is a very high energy (calories) textured feed. This is a complete, balanced diet formulated for optimum growth and development of show cattle during finishing. It can be preceded by feeding Honor® Show Fitter's Edge® or Honor® Show Full Range®.

Honor® Show Full Control®

Honor® Show Full Control® feed is a textured ration that maintains body condition and helps create fill in show cattle. Honor® Show Full Control® is a lower energy textured diet especially effective in developing easy fleshing breeding cattle. It is also an ideal diet for heavily-muscled, moderate framed steers and for managing weight and condition on all types of show cattle once desired bloom is achieved.

Honor® Show Grand 4-T-Fyer™

Honor® Show Grand 4-T-Fyer™ concentrate is a blended supplement that can be mixed with cottonseed hulls, beet pulp and other feedstuffs to provide a high-quality ration for show cattle. This flexible feed allows you to adjust the grain level to fit your goals and needs for breeding cattle, steers and feeder calves.

Minerals / Supplements

Purina® High Octane® ALLEVIATE™ Gastric Support

Purina® High Octane® ALLEVIATE™ Supplement for show cattle, pigs, lambs and goats is formulated to support optimal pH in the digestive system of animals. ALLEVIATE™ supports a healthy rumen and supports feed intake.

Purina® High Octane® Champion Drive™

Purina® High Octane® Champion Drive™ Topdress is designed to be fed from start to finish of the show animal project as a supplemental protein source. Formulated with very high-quality animal protein sources for muscle synthesis and maximum definition.

Purina® High Octane® Power Fuel®

Purina® High Octane® Power Fuel® Topdress is an extruded high fat nugget that is very useful for helping to promote body condition and growth performance. High Octane® Power Fuel® Topdress contains 31% crude fat and provides a high level of energy.

Purina® High Octane® Fitter 35®

Purina® High Octane® Fitter 35® is a pelleted high protein, low energy supplement for helping to improve muscling and helping to trim body fat.

Purina® High Octane® Fitter 52™

Purina® High Octane® Fitter 52™ supplement is formulated as a very high protein supplement to affect leanness. Designed to quickly promote muscle synthesis and definition, its proprietary ingredient blend and can be fed to all show livestock species.

Purina® High Octane® Depth Charge®

Purina® High Octane® Depth Charge® Supplement is an advanced nutritional supplement for all classes of animals being fed for show. Depth Charge® expands rapidly after ingestion and helps with mid to high level fill (rib shape and upper flank).

Purina® High Octane® Ultra Full™

Purina® High Octane® Ultra Full™ supplement is designed to help support fill in the lower body and flank areas through controlled, progressive expansion. Ultra Full™ supplement can be fed in combination and complements our High Octane® Depth Charge® supplement. Its proprietary ingredient blend enhances palatability to help stimulate feed intake and can be fed to all show livestock species.

Minerals / Supplements

Purina® High Octane® Golden Ticket®

Purina® High Octane® Golden Ticket™ is an extremely palatable, calorie dense supplement for all show livestock species. This nutrient packed supplement delivers the nutrition you demand to prepare your animals for the show ring. Purina® High Octane® Golden Ticket™ helps propel you into the purple circle by supplying high quality caloric and protein sources.

Purina® High Octane® DX1800®

Purina® High Octane® DX1800® Pellet is a concentrated (1800 grams/ton) supplement for medicating feed with decoquinate for the prevention and control of coccidiosis in ruminants, including show cattle, lambs, and kid goats. This 1/8" diameter mini pellet is very palatable and can be placed into a mixer while manufacturing feed, or fed as a topdress.

Purina® Wind and Rain® ProCycle®

Designed for high trace mineral bioavailability, Purina® Wind and Rain® ProCycle® is an elite mineral with consistent consumption designed to get cows bred, keep them bred and deliver to your bottom-line. This mineral offers ultimate trace mineral absorption through a cutting-edge combination of organic and inorganic sources, which supports elite reproductive expectations. ProCycle® includes everything you love about Purina® Wind and Rain® Mineral, like proven consumption, plus next generation technology to optimize utilization. ProCycle® is designed for high performance and is a good fit for seedstock, club calf and cow/calf operations using artificial insemination and embryo transfer programs. Purina® Wind and Rain® ProCycle® Mineral is available in a fly control formulation and in bag or tub form, providing a convenient form for any operation.

Purina® Stress Tub

Purina® Stress Tub is a free choice supplement designed for young and breeding age cattle prior to, during or after stressful events. This product is recommended for use in pre-weaning and receiving situations, as well as a useful tool when traveling to cattle shows. Purina® Stress Tubs optimize feed intake by providing important macro and micro ingredients during these stressful times. By providing key nutrients needed for a fully functioning immune system, cattle are fully prepared to face stresses of weaning and transport, effectively respond to vaccination programs, and maintain consistent feed consumption. This tub is available in multiple sizes to fit different operations and situations, including 60 lb tub, 125 lb tub and a 225 lb tub.

Minerals / Supplements

Purina® RangeLand® Protein Tub

Purina® RangeLand® Protein Tubs are a free choice supplement designed for beef cattle on forage diets. The low moisture, cooked molasses product technology delivers consistent intake and nutrient delivery that helps eliminate overconsumption. As a free-choice supplement, it can help to reduce labor for producers. This tub is available in multiple sizes to fit different operations and situations, including 60 lb tub, 125 lb tub and 225 lb tub.

Purina® Accuration® Hi-Fat Block

A premium, weather-resistant, protein block with Intake Modifying Technology® to support snack eating. Intake Modifying Technology helps match consumption to needs. As cattle's requirements become greater, consumption will increase. It is formulated with 10% fat to help meet cattle energy needs when forages don't and helps to maintain body condition and performance.

Feed

Purina® Accuration® Starter

This complete ration is designed to take the headache out of getting calves started on feed. Purina® Accuration® Starter is formulated with optimal forage inclusion and Intake Modifying Technology® to maximize performance by encouraging multiple small meals throughout the day. It also contains RX3™ Immune Support Technology, a proprietary blend of prebiotics, probiotics and plant extracts, to set calves up for success starting in the weaning phase. These technologies work together to keep calves on feed and set them up for a healthy future.

Purina® Precon® Complete

Since 1968, Preconditioning Receiving Chow® has been a standard by which starters are measured. Now known as Precon® Starter Complete, this pelleted feed will get young cattle eating quickly to look their best. Provide an added advantage with Precon's balanced nutrition to optimize intake, health and weight gains. It contains RX3™ Immune Support Technology to help prepare calves' natural defenses to optimize their response to stress and common calf health challenges.
