

Spartan Aquarium Gel Diet

Mazuri® Spartan Aquarium Gel Diet is formulated for feeding marine fish and was designed in collaboration with James Prappas. This diet is shipped as a powder that is designed to be made into a gel prior to feeding.

Features and Benefits

- **Collaboratively designed with James Prappas** – Leading aquarist.
- **Fortified with additional B vitamins for marine fish health** – Contains additional B₁₂, which supports digestion and slime coat production.
- **Soft-moist texture of gel** – More palatable to fish which are difficult to feed.
- **Contains probiotics** – To support gastrointestinal and skin health in fish.
- **Contains all vitamins and trace minerals known to be required for fish.**
- **Multiple sustainable fish meal sources used.**

Catalog #0026668 | Dry Powder | Order by the kg.

Guaranteed Analysis (dry powder)

Crude protein not less than	55.00%	Calcium not less than	3.50%
Crude fat not less than	14.00%	Calcium not more than.....	4.50%
Crude fiber not more than	3.00%	Phosphorus not less than	1.50%
Ash not more than	17.00%	Sodium not more than	1.30%

Ingredients

Menhaden Meal, Salmon Meal, Gelatin, Shrimp Meal, Fish Oil, Whole Yellow Corn, Soybean Oil, Spirulina Algae Meal, Salt, Calcium Carbonate, Anhydrous Betaine, Potassium Chloride, Calanoid Copepods, Squid Meal, Xanthan Gum, Choline Chloride, L-Ascorbyl-2-Polyphosphate (Vitamin C), Dried Lactobacillus acidophilus Fermentation Product, Dried Lactobacillus casei Fermentation Product, Dried Bifidobacterium thermophilum Fermentation Product, Inositol, Dried Enterococcus faecium Fermentation Product, Tagetes (Aztec Marigold) Extract (Color), Nicotinic Acid, Zinc Oxide, Calcium Pantothenate, D-Alpha Tocopheryl Acetate (Vitamin E), Manganous Oxide, Astaxanthin (Color), Ferrous Sulfate, Ethoxyquin (a Preservative), Ferrous Carbonate, Copper Sulfate, Thiamine Mononitrate, Menadione Sodium Bisulfite Complex (Vitamin K), Riboflavin-5-Phosphate, Pyridoxine Hydrochloride, Canthaxanthin (color), Beta Carotene, Folic Acid, Zinc Sulfate, Vitamin A Acetate, Calcium Iodate, Biotin, Cobalt Carbonate, Vitamin B12 Supplement, Cholecalciferol (Vitamin D3).

Feeding Directions

NEVER FEED DRY PRODUCT.

- Combine by weight 70% boiling water and 30% Mazuri® gel powder. Adjust ratios to desired texture and need.
 - Mix fully, pour into shallow pan. Refrigerate until firm. Cut to desired size and feed.
- Intake of up to 50% prepared Mazuri® gel is recommended.
- Always provide plenty of fresh, clean water.
- Prepared gel should be consumed or discarded within 24 hours or stored no longer than 7 days under refrigeration or up to 1 month frozen. If frozen, it is recommended that frozen batches be individually sealed in amount of usage, as repeated entry into the container exposes gel to oxygen.
- Thoroughly wash feed and water bowls on a regular basis. It is always good practice to wash hands thoroughly after feeding and/or handling animals. This diet is not for human consumption.

Storage Conditions

Mazuri® Gel Diets have a 1-year shelf life in the dry powder form when stored in a dry environment. For best results, tightly affix lid on canister after removal of desired dosage or store contents of open bags in container with sealing lid. Store in a cool (75°F/24°C or colder), dry (approximately 50% RH) location free from rodents and insects. Do not feed moldy or insect-infested feed to animals as it may cause illness, performance loss or death. The mixed product should be stored under refrigeration for no longer than 7 days or frozen for up to 1 month. It is recommended that frozen batches be individually sealed in amount of usage, as repeated entry into the container exposes gel to oxygen. Once this product is mixed, it should be handled like raw food.
