

Waterfowl Maintenance

Mazuri® Waterfowl Maintenance is designed for non-laying, mature, fully-feathered waterfowl to provide quality nutrition for ducks, geese, swans, and other waterfowl species.

Features and Benefits

- **Exceeds published niacin requirements for waterfowl** – Supports healthy growth and development at 150 ppm.
- **Floating, extruded diet** – Allows birds to be fed on the water and prevents accumulation on the bottom of the feeding area, limiting water contamination and waste and creating a more natural feeding environment.
- **No supplementation required** – Requires no mixing or supplementation and eliminates sorting.
- **Balanced nutrition to energy ratio** – To help maintain condition.
- **No added artificial colors, flavors, or preservatives.**
- **Sustainable fishmeal source used.**

Product Form & Packaging

Extruded Particle | 3/8" x 3/16"

- **Catalog #0057002** | 5 lb. (2.26 kg) net weight resealable poly bag
- **Catalog #0053046** | 12 lb. (5.44 kg) net weight resealable poly bag
- **Catalog #0057001** | 25 lb. (11.33 kg) net weight woven poly bag
- **Catalog #0001435** | 50 lb. (22.67 kg) net weight woven poly bag
- **Catalog #0057003** | Case: 4 x 5 lb. net weight resealable poly bags
- **Catalog #0053064** | Case: 4 x 12 lb. net weight resealable poly bags

Guaranteed Analysis

Crude protein not less than.....	14.00%	Calcium not more than	1.30%

Ingredients

Ground Corn, Wheat Middlings, Ground Oats, Dehulled Soybean Meal, Calcium Carbonate, Fish Meal, Soybean Oil, Dicalcium Phosphate, Brewers Dried Yeast, Salt, Cholecalciferol (Vitamin D3), Menadione Sodium Bisulfite Complex (Vitamin K), Preserved with Mixed Tocopherols, Nicotinic Acid, d-Alpha Tocopheryl Acetate (Vitamin E), Vitamin A Acetate, Citric Acid (a Preservative), Choline Chloride, Manganous Oxide, Zinc Oxide, Calcium Pantothenate, Folic Acid, Copper Sulfate, Vitamin B12 Supplement, Riboflavin-5-Phosphate, L-Lysine, DL-Methionine, Rosemary Extract, Calcium Iodate, Biotin, Sodium Selenite.

Feeding Directions

- Feed free choice to non-laying, mature, fully-feathered birds.
- Adult birds should eat approximately ¼ cup (17 g) per lb. (0.45 kg) of body weight daily, but amounts will vary based on species, size, and activity level.
 - Supplementation is not necessary, but if desired, other food items and supplements should make up no more than 20% of the total dietary intake.
- To encourage natural feeding behavior, scatter food directly on the water, where it will float.
 - To prevent the diet from floating away, offer feed in a shallow trough of water.
- For added convenience, this diet may also be offered dry.
- For birds laying eggs, we recommend Mazuri® Waterfowl Breeder Diet.
- Always provide plenty of fresh, clean water. Thoroughly wash feed and water bowls on a regular basis. It is always good practice to wash hands thoroughly after feeding and/or handling animals.
- This diet is not for human consumption.

Storage Conditions

For best results, reseal the bag between uses or store contents of open paper sack in container with sealing lid. Store in a cool (75°F/24°C or colder), dry (approximately 50% RH) location free from rodents and insects. Do not offer moldy or insect-infested feed to animals as it may result in illness, performance loss or death. Freezing will not harm the diet and may extend freshness. Use within 1 year of bag manufacturing or "Best if Used By" date.
