## Feeding Directions

Feed ad libitum to adult cranes.

- On average, adult cranes will consume 200 to 300 grams/day.
- Amount consumed will depend upon time of year, life stage of the bird, and reproductive phase.

Always provide birds access to plenty of fresh, clean water.

Offer crane chicks Mazuri® Ratite Starter Diet.

Thoroughly wash feed and water bowls on a regular basis. It is always good practice to wash hands thoroughly after feeding and/or handling animals. This diet is not for human consumption.

**Important:** A feeding program is only as effective as the management practices followed. Use only as directed.

## Storage Conditions

For best results, reseal the bag between uses or store contents of open paper sack in container with sealing lid. Store in a cool (75°F/24°C or colder), dry (approximately 50% RH) location free from rodents and insects. Do not offer moldy or insect-infested feed to animals as it may result in illness, performance loss or death. Freezing will not harm the diet and may extend freshness. Use within 1 year of bag manufacturing or "Best if Used By" date.
