

Mazuri® Moose Breeder Diet

Available at www.mazuri.com or through a Mazuri® retailer.

Formula Code - 5657

Description

Mazuri® Moose Breeder Diet is a concentrated feed designed to approximate the nutrient density of natural foods while providing the nutrition needed to keep animals in good condition during reproductive phases.

Features and Benefits

- **Starch-reduced** - To approximate natural foods.
- **Fortified with vitamins and minerals** - Provides nutritional balance needed.
- **Highly palatable** - Animals will readily consume without excessive weight gain.
- **Pellet form** - Easy to feed; minimizes waste.

Product Form

Pelleted feed: 5/32" diameter x 1/2" length.

- 40 lb. net weight paper sack

Catalog

0005499

Guaranteed Analysis

| | | | |
|-----------------------------------|-------|--------------------------------|-------|
| Crude protein not less than | 16.0% | Calcium not less than | 0.85% |
| Crude fat not less than | 4.5% | Calcium not more than | 1.35% |
| Crude fiber not more than | 25.0% | Phosphorus not less than | 0.60% |
| Ash not more than | 9.0% | Salt not less than | 0.50% |
| | | Salt not more than | 1.00% |

Ingredients

Dehulled soybean meal, ground aspen, dehydrated alfalfa meal, dried beet pulp, cane molasses, oat hulls, soybean oil, sucrose, dicalcium phosphate, salt, magnesium oxide, choline chloride, calcium carbonate, l-ascorbyl-2-polyphosphate (stabilized vitamin C), pyridoxine hydrochloride, cholecalciferol (form of vitamin D₃), vitamin A acetate, d-alpha tocopheryl acetate (form of vitamin E), folic acid, calcium iodate, menadione sodium bisulfite complex (source of vitamin K), calcium pantothenate, copper sulfate, biotin, vitamin B₁₂ supplement, zinc oxide, thiamine mononitrate, nicotinic acid, riboflavin supplement, cobalt carbonate, manganous oxide, ferrous carbonate, zinc sulfate, sodium selenite.

Feeding Directions

- Feed to animals ad libitum along with suitable browse and roughage. Suitable for trough feedings.
 - Introduce Mazuri® Moose Breeder Diet in early summer by mixing increasing amounts of this concentrate into Mazuri® Moose Maintenance Diet.
 - By late summer, Mazuri® Moose Breeder Diet should be the only source of concentrated feed available.
 - In late autumn, begin reducing the amount of Mazuri® Moose Breeder Diet by mixing it with increasing amounts of the Mazuri® Moose Maintenance Diet, until mid-winter when the maintenance feed is the only source of concentrate offered.
- Always provide animal with plenty of fresh, clean water.

CONTAINS MORE THAN 15 PPM COPPER – IF USING FOR SHEEP SPECIES ENSURE TO BALANCE THE COMPLETE DIET FOR TOTAL COPPER INTAKE.

| Vitamin D ₃ (added), IU/kg..... | 1,900 |
| Vitamin E, IU/kg..... | 110 |
| Vitamin K (as menadione), ppm..... | 3.1 |

Storage Conditions

For best results, store contents of open bag in container with sealing lid. Store in a cool (75°F or colder), dry (approximately 50% RH) location. Freezing will not harm the diet and may extend freshness. Use within 1 year of bag manufacturing.

¹ Based on the latest ingredient analysis information. Since nutrient composition of ingredients varies, analyses will vary accordingly.

² Calculated from NRC of Small Ruminants (2007).
