

Better Bug® Gut Loading Diet

Mazuri® Better Bug® Gut Loading Diet is formulated to contain a high level of calcium, omega-3 fatty acids, and vitamin A precursors for crickets and other feeder insects, which are intended to be used in the diets of other animals. This diet is to be fed to insects in order to increase levels of these nutrients in the gut-fill; this helps balance the calcium to phosphorus ratio of the crickets and other feeder insects when animals consume them. This diet is not intended for use in breeding or raising insects.

Features and Benefits

- **Contains high level of calcium** – Helps balance calcium to phosphorus ratio.
- **Contains sources of omega-3 fatty acids** – To help enrich diets of insect-eating animals.
- **Enriched with vitamin A and beta carotene.**
- **Palatable** – Readily eaten by crickets.

Product Form & Packaging

Meal |

- **Catalog #1815514-109** | 25 lb. (11.33 kg) net weight
- **Catalog #1815514-717** | 1 kg net weight canister
- **Catalog #1815514-945** | 8 oz. (226 g) net weight resealable poly bag
- **Catalog #1815514-946** | Case: 12 x 8 oz. resealable poly bags

Ingredients

Calcium Carbonate, Fish Meal, Ground Corn, Fish Oil, Dehulled Soybean Meal Spirulina Algae Meal, Chicken Meal, Corn Protein Meal, Porcine Meat and Bone Meal, Salt Brewers Dried Yeast, Pyridoxine Hydrochloride, Preserved with Mixed Tocopherols Choline Chloride, Magnesium Oxide, L-Ascorbyl-2-Polyphosphate (Vitamin C) Citric Acid (a Preservative), Calcium Pantothenate, d-Alpha Tocopheryl Acetate (Vitamin E) Folic Acid, Riboflavin-5-Phosphate, Vitamin A Acetate, Thiamine Mononitrate Nicotinic Acid, Rosemary Extract, Zinc Oxide, Manganous Oxide, Calcium Carbonate Ferrous Carbonate, Vitamin B12 Supplement, Copper Sulfate Menadione Sodium Bisulfite Complex (Vitamin K), Cholecalciferol (Vitamin D3) DL-Methionine, Zinc Sulfate, Calcium Iodate, Biotin, Cobalt Carbonate, Sodium Selenite.

Feeding Directions

- Feed to crickets or other feeder insects for 24-72 hours before offering to your reptile.
- No additional supplementation of insects is needed.
- The use of Better Bug® Gut Loading Diet will enhance the total body nutrients of the feeder insect, resulting in optimized nutrition being delivered to your reptile.
- Always provide a hydration source.
 - If offering liquid water, do so in a very shallow dish to prevent animal mortality.
- Thoroughly wash feed and water bowls on a regular basis. It is always good practice to wash hands thoroughly after feeding and/or handling animals. This diet is not for human consumption.

Storage Conditions

For best results, reseal the bag between uses or store contents of open paper sack in container with sealing lid. Store in a cool (75°F/24°C or colder), dry (approximately 50% RH) location free from rodents and insects. Do not offer moldy or insect-infested feed to animals as it may result in illness, performance loss or death. Freezing will not harm the diet and may extend freshness. Use within 1 year of bag manufacturing or "Best if Used By" date.
