

## Mazuri® Primate LS Biscuit - Large

(Available at [www.mazuri.com](http://www.mazuri.com) or through a Mazuri® retailer)

**Formula Code – 5M1S | Catalog #0048134**

Diet developed in collaboration  
with Disney's Animal Kingdom

### Description

Mazuri® Primate LS Biscuit – Large (formerly Primate L/S Biscuit – Cinnamon) is formulated to provide a reduced-starch, high-fiber portion of a primate's complete diet. The cinnamon-flavored biscuits are the larger of the two Mazuri® Primate LS Biscuit offerings and are highly fortified to meet the needs of a variety of primates under managed care. The cinnamon flavor has been tested for palatability in a wide range of primates.

### Features and Benefits

- **Less than 8% starch** – Lower starch more closely mimics the composition of wild food items.
- **Designed to be fed with supplementation** - Allows for natural feeding behaviors by the addition of species-appropriate food items.
- **Meets NRC recommendations for all nutrients** - Except protein, sodium and chloride when fed at 50% of the diet.
- **High fiber** - Contains multiple sources of soluble and insoluble fiber.
- **Contains *Lactobacillus* cultures** - May promote GI tract health.
- **Fortified with additional B vitamins** - May benefit geriatric primates.
- **Vitamin E and vitamin C** - More bioavailable sources of these nutrients.
- **Contains flaxseed** - Source of omega-3 fatty acids.
- **Contains beta-carotene and taurine.**

### Product Form

Extruded Particle | 5/8" diameter x 1 3/4" length | 25 lb. net weight paper sack

### Guaranteed Analysis

Crude protein not less than .....	20.00%	Moisture not more than .....	12.00%
Crude fat not less than.....	5.00%	Ash not more than .....	8.00%
Crude fiber not more than.....	20.00%		

### Ingredients

Dehulled Soybean Meal, Ground Soybean Hulls, Dried Plain Beet Pulp, Corn Protein Meal, Oat Hulls, Dried Apple Pomace, Cane Molasses, Ground Flaxseed, Ground Whole Aspen, Carrageenan, Soybean Oil, Wheat Germ, Dicalcium Phosphate, Rice Flour, Sucrose, Fructose, Potassium Chloride, Brewers Dried Yeast, Pyridoxine Hydrochloride, Taurine, L-Ascorbyl-2-Polyphosphate (Vitamin C), Choline Chloride, Calcium Carbonate, Salt, Cinnamon, Dried *Lactobacillus acidophilus* Fermentation Product, Calcium Pantothenate, d-Alpha Tocopheryl Acetate (Vitamin E), DL-Methionine, Dried *Lactobacillus casei* Fermentation Product, Folic Acid, Cholecalciferol (Vitamin D3), Dried *Bifidobacterium thermophilum* Fermentation Product, Dried *Enterococcus faecium* Fermentation Product, Zinc Proteinate, Vitamin A Acetate, Manganese Proteinate, Menadione Sodium Bisulfite Complex (Vitamin K), Nicotinic Acid, Copper Proteinate, Riboflavin-5-Phosphate, Thiamine Mononitrate, Preserved with Mixed Tocopherols, Vitamin B12 Supplement, Citric Acid (a Preservative), Beta Carotene, Manganese Sulfate, Copper Sulfate, Cobalt Proteinate, Ethylenediamine Dihydroiodide, Rosemary Extract, Sodium Selenite, Biotin.

### Feeding Directions

- Mazuri® Primate LS Biscuits are designed to be an essential part of a total primate feeding system and may be used in conjunction with all other Mazuri® primate products.
- Primates generally consume about 2% to 4% of their body weight in food each day on a dry matter basis (i.e., a 50 kg animal will eat 1 to 2 kg of food per day, on a dry matter basis).
  - Mazuri® Primate LS Biscuits can be supplemented with fresh vegetables and fruit, if desired to provide variety in the diet, as long as the dry matter of these items does not exceed 50% of the dry matter consumption. Using typical produce and non-toxic browse, a feeding program on an "as fed" basis might consist of 60% produce/browse and 40% Mazuri® primate products (i.e., a diet may be 6 lb. of produce/browse plus 4 lb. of one or a mix of Mazuri® primate products).
  - The amount of diet the animal requires will vary according to its age, size, life stage, health status and activity of the animal and the environmental temperature. Adjust daily feed allotments based on the health status, body condition and nutrient level desired to meet the needs of your primates.
- Fresh, clean water should always be available.
- Primates require ascorbic acid (vitamin C) in their daily diet. Mazuri® Primate Diets contain a stabilized form of vitamin C that is stable under appropriate storage conditions for at least 1 year from the date of manufacturing printed on the bag.
- Smaller-sized Mazuri® Primate LS Biscuit - Small also available.
