

Mazuri® Wild Carnivore® Bear Plus Diet

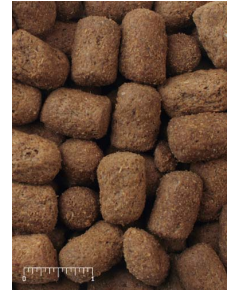

Formula Code – 5M6X

Description

Mazuri® Wild Carnivore® Bear Plus Diet is a high-fat diet to be fed to bears under the direction of a nutritionist.

Features and Benefits

- **High levels of sustainable fish meal and fish oil** – From menhaden, a high quality protein source.
- **Lower protein, higher fat** – more closely resembles the protein to energy ratio of wild bear diets.
- **Contains probiotics** – Supports GI tract health.
- **Contains organic trace minerals** – For enhanced mineral absorption.
- **Provides long-chain omega-3 fatty acids** – From fish oil and flaxseed.
- **Extruded feed** – Optimizes digestibility of diet.

Product Form

Extruded feed: 5/8" diameter x 1" length.

- 40 lb. net weight paper sack

Catalog
