

Koi Pond Nuggets

Mazuri® Koi Pond Nuggets offers complete nutrition, with a taste koi can't resist, and ingredients that support beautiful, vibrant coloration. Plus, the food particles float – to encourage fish to come to the surface of your pond, tank, or aquarium so you can enjoy mealtime, too.

Features and Benefits

- **Complete nutrition** – No supplements needed.
- **Sustainable fish meal source used.**
- **Highly palatable** – Fish will eat it readily.
- **Floating particles** – Fish can be observed eating.

Product Form & Packaging

Catalog #0001489 | Extruded Particle | 3/16" x 3/16" | 20 lb. (9.07 kg) net weight paper w/poly bag

Guaranteed Analysis

Crude protein not less than	33.00%	Calcium not less than.....	1.38%

Feeding Directions

- Feed to koi in ponds as a floating feed.
- Suitable for fish six inches or longer.
- Feed only as much as fish will readily consume.
 - Do not over feed as excess feed will decompose in the water, resulting in poor water quality, which in turn can be harmful to the health of the fish.
- Thoroughly wash feed and water bowls on a regular basis. It is always good practice to wash hands thoroughly after feeding and/or handling animals.
- This diet is not for human consumption.

Storage Conditions

For best results, reseal the bag between uses or store contents of open paper sack in container with sealing lid. Store in a cool (75°F/24°C or colder), dry (approximately 50% RH) location free from rodents and insects. Do not offer moldy or insect-infested feed to animals as it may result in illness, performance loss or death. Freezing will not harm the diet and may extend freshness. Use within 1 year of bag manufacturing or "Best if Used By" date.
