

Hamster & Gerbil Diet

Mazuri® Hamster & Gerbil Diet was developed to support the unique needs of hamsters and gerbils. This diet is designed for growing hamsters and gerbils as well as adults at maintenance.

Features and Benefits

- **High fiber & probiotics** – Supports healthy digestion.
- **Encourages chewing** – Supports dental health.
- **Includes Omega 3s and vitamin E** – A source of antioxidants.
- **Contains timothy hay** – Supports healthy digestion.
- **Contains dried Yucca schidigera extract** – Reduces waste odor.
- **Balanced nutrition with vitamins and minerals.**
- **No added colors or artificial flavors.**

Product Form & Packaging

Extruded Particle | multiple particle sizes

- **Catalog #3007660-745** | 1.25 lb. (566 g) net weight resealable poly bag
- **Catalog #3007660-746** | Case: 6 x 1.25 lb. net weight resealable poly bags

Guaranteed Analysis

(Lactobacillus acidophilus, Lactobacillus casei, Bifidobacterium thermophilum, Enterococcus faecium)*

*Contains a source of live (viable) naturally occurring microorganisms.

Ingredients

Wheat Middlings, Ground Timothy Hay, Dehulled Soybean Meal, Ground Soybean Hulls, Ground Corn, Ground Wheat, Ground Oats, Cane Molasses, Soybean Oil, Calcium Carbonate, Ground Flaxseed, Dicalcium Phosphate, Salt, Calcium Propionate (a Preservative), Brewers Dried Yeast, DL-Methionine, Choline Chloride, Dried Lactobacillus acidophilus Fermentation Product, Dried Lactobacillus casei Fermentation Product, Dried Bifidobacterium thermophilum Fermentation Product, DL-Alpha Tocopheryl Acetate (Vitamin E), Dried Enterococcus faecium Fermentation Product, Yucca schidigera Extract, Pyridoxine Hydrochloride, Vitamin A Acetate, Menadione Sodium Bisulfite Complex (Vitamin K), Cholecalciferol (Vitamin D3), Folic Acid, Preserved with Mixed Tocopherols, Citric Acid (a Preservative), Thiamine Mononitrate, Manganous Oxide, Calcium Pantothenate, Zinc Oxide, Nicotinic Acid, Ferrous Carbonate, Riboflavin-5-Phosphate, Vitamin B12 Supplement, Copper Sulfate, Zinc Sulfate, Rosemary Extract, Calcium Iodate, Cobalt Carbonate, Sodium Selenite.

Feeding Directions

- Feed free choice to hamsters and gerbils. Feed consumption will be based on species body size and life stage. Use the following examples as guidelines, per animal:
 - Syrian hamsters: Adults generally consume 20 to 25 grams of feed per day (approx. 40 to 50 pellets).
 - Dwarf hamsters: Adults generally consume 5 to 7 grams of feed per day (approx. 9 to 12 pellets).
 - Gerbils: Adults generally consume 10 to 15 grams of feed per day (approx. 20 to 25 pellets).
 - Growing hamsters and gerbils: Offer free choice as sole diet.
- For adults, supplemental food items (grasses, vegetables, and seeds) may be provided but should not make up more than 20% of the diet. Diets containing higher amounts of seeds and other high calorie treats may predispose animals to obesity and other nutritional health disorders.
- For breeding animals, we suggest Mazuri® Rodent 6F.
- Always provide plenty of fresh, clean water. Thoroughly wash feed and water bowls on a regular basis. It is always good practice to wash hands thoroughly after feeding and/or handling animals. This diet is not for human consumption.

Storage Conditions

For best results, reseal the bag between uses or store contents of open paper sack in container with sealing lid. Store in a cool (75°F/24°C or colder), dry (approximately 50% RH) location free from rodents and insects. Do not offer moldy or insect-infested feed to animals as it may result in illness, performance loss or death. Freezing will not harm the diet and may extend freshness. Use within 1 year of bag manufacturing or "Best if Used By" date.
