Feeding Directions

- Feed to koi and very large goldfish over 6 inches in length.
- Feed 1 – 3 times per day and only as much as fish will readily consume in 5 minutes.
 - Do not overfeed, as excess feed will decompose in the water resulting in poor water quality, which may be harmful to the health of your fish.
- For the same nutrition in different particle size, consider:
 - Mazuri® Koi Platinum Bits - suitable for fish up to six inches.
 - Mazuri® Koi Platinum Ogata - suitable for all koi over twelve inches long.
- When feeding multiple sizes of fish, choose a particle size the smaller fish will be able to eat.
- It is always good practice to wash hands thoroughly after feeding and/or handling pets. This diet is not intended for human consumption.

Storage Conditions

For best results, store contents of open paper sack in container with sealing lid. Store in a cool (75°F or colder), dry (approximately 50% RH) location. Freezing will not harm the diet and may extend freshness. Use within 1 year of bag manufacturing.
