Feeding Directions

- Feed to koi and goldfish 1 – 3 times per day and only as much as fish will readily consume in 5 minutes.
 - Do not overfeed, as excess feed will decompose in the water resulting in poor water quality, which may be harmful to the health of your fish.
- Mazuri® Koi Platinum Bits are suitable for fish up to six inches. For the same nutrition in different particle size, consider:
 - Mazuri® Koi Platinum Nuggets - suitable for fish greater than six inches long.
 - Mazuri® Koi Platinum Ogata - suitable for all koi over twelve inches long.
- When feeding multiple sizes of fish, choose a particle size the smaller fish will be able to eat.
- It is always good practice to wash hands thoroughly after feeding and/or handling animals. This diet is not intended for human consumption.
