

Aquatic Turtle Diet

Mazuri® Aquatic Turtle Diet is designed for all life stages of freshwater turtles, such as painted and red-eared turtles.

Features and Benefits

- **Nutritionally complete** – No vitamin or mineral supplementation required.
- **Floating diet** – Encourages natural feeding behavior.
- **High levels of fish and animal protein** – Meets the needs of carnivorous species.
- **Supplemented with vitamin E** – Supports a healthy immune system.

Product Form & Packaging

Extruded Particle | 5/32" round particles

- **0052505** | 12 oz. (340 g) resealable poly bag
- **0047362** | 25 lb. (11.33 kg) paper w/poly bag
- **0052506** | Case: 6 x 12 oz. resealable poly bags

Ingredients

Fish Meal, Ground Corn, Dehulled Soybean Meal, Corn Gluten Meal, Chicken Meal, Fish Oil, Porcine Meat and Bone Meal, Salt, Brewers Dried Yeast, Pyridoxine Hydrochloride, Biotin, Choline Chloride, Preserved with Mixed Tocopherols, Magnesium Oxide, L-Ascorbyl-2-Polyphosphate (Vitamin C), Calcium Pantothenate, d-Alpha Tocopheryl Acetate (Vitamin E), Folic Acid, Rosemary Extract, Riboflavin Supplement, Vitamin A Acetate, Thiamine Mononitrate, Nicotinic Acid, Citric Acid (a Preservative), Zinc Oxide, Manganous Oxide, Calcium Carbonate, Ferrous Carbonate, Vitamin B12 Supplement, Menadione Sodium Bisulfite Complex (Vitamin K), Vitamin D3 Supplement, Copper Sulfate, DL-Methionine, Zinc Sulfate, Calcium Iodate, Cobalt Carbonate, Sodium Selenite.

Feeding Directions

- Feed to juvenile or adult turtles one time per day, three to five times per week.
- The diet should be scattered on the water, where it will float.
- Turtles will usually eat floating diet for 15 to 20 minutes and then bask, returning later in the day to consume remaining diet that has sunk to the bottom.
- For best results, feed only the amount of diet that the turtles will readily consume in one day.
 - The actual amount of diet the turtles will eat varies with temperature and time of year.
 - Feed to maintain appropriate growth rates.
- Thoroughly wash feed and water bowls on a regular basis. It is always good practice to wash hands thoroughly after feeding and/or handling animals.
- This diet is not for human consumption.

Storage Conditions

For best results, reseal the bag between uses or store contents of open paper sack in container with sealing lid. Store in a cool (75°F/24°C or colder), dry (approximately 50% RH) location free from rodents and insects. Do not offer moldy or insect-infested feed to animals as it may result in illness, performance loss or death. Freezing will not harm the diet and may extend freshness. Use within 1 year of bag manufacturing or "Best if Used By" date.
