

Mazuri® Primate Maintenance Biscuit

(Available at www.mazuri.com or through a Mazuri® retailer.)

Formula Code – 5MA2

Description

Mazuri® Primate Maintenance Biscuit is formulated for a variety of primates. The diet is especially useful in feeding mature and overweight primates.

Features and Benefits

- **Designed to be fed with supplementation** - Allows for natural feeding behaviors by the addition of species-appropriate food items.
- **Meets NRC recommendations for all nutrients** - Except protein, sodium and chloride when fed at 50% of the diet.
- **Contains DentaGuard** - May reduce the occurrence of dental calculi.
- **No added wheat product** - May be appropriate for animals with wheat sensitivity.
- **Natural source vitamin E and stabilized vitamin C** - More bioavailable forms of these nutrients.
- **Contains flaxseed** - Source of Omega-3 fatty acids.
- **Contains taurine**.

Product Form

Extruded biscuit: 1 1/4" x 2" length.

- 25 lb. net weight paper sack

0040996

Guaranteed Analysis

Crude protein not less than	15.0%
Crude fat not less than	4.0%
Crude fiber not more than	10.0%
Moisture not more than	12.0%
Ash not more than	8.0%

Ingredients

Ground corn, ground soybean hulls, dehulled soybean meal, ground oats, corn gluten meal, sucrose, fructose, calcium carbonate, soybean oil, dehydrated alfalfa meal, dried beet pulp, flaxseed, sodium hexametaphosphate, dried apple pomace, brewers dried yeast, dicalcium phosphate, natural flavor, L-ascorbyl-2-polyphosphate (stabilized vitamin C), pyridoxine hydrochloride, taurine, choline chloride, salt, dl-methionine, folic acid, L-lysine, iron proteinate, cholecalciferol (form of vitamin D₃), d-alpha tocopheryl acetate (form of vitamin E), calcium pantothenate, vitamin A acetate, biotin, menadione sodium bisulfite complex (source of vitamin K), preserved with mixed tocopherols (form of vitamin E), rosemary extract, thiamine mononitrate, vitamin B₁₂ supplement, riboflavin supplement, nicotinic acid, citric acid, zinc proteinate, potassium chloride, manganese proteinate, ground rice hulls, copper proteinate, cobalt proteinate, ethylenediamine dihydroiodide, sodium selenite.

Feeding Directions

- Mazuri® Primate Maintenance Biscuit is designed to be an essential part of a total primate feeding system and may be used in conjunction with all other Mazuri® primate products.
- Primates generally consume about 2% to 4% of their body weight in food each day on a dry matter basis (i.e., a 50 kg animal will eat 1 to 2 kg of food per day, on a dry matter basis).
 - Mazuri® Primate Maintenance Biscuit can be supplemented with fresh vegetables and fruit if this is desired to provide variety in the diet, as long as the dry matter of these items does not exceed 50% of the dry matter consumption. Using typical produce and browse, a feeding program on as "as fed" basis would consist of 60% produce/browse and 40% Mazuri® primate products (i.e., a diet may be 6 lb. of produce/browse plus 4 lb. of one or a mix of Mazuri® primate products).
- The amount of diet the animal requires will vary according to its age, size, life stage, health status and activity of the animal and the environmental temperature.
 - Adjust daily feed intake based on the health status, body condition and nutrient level desired to meet the needs of your primates.
 - Diet may be soaked to soften the biscuits for infants or animals that have difficulty chewing.
- Fresh, clean water should be available at all times.
- Primates require ascorbic acid (vitamin C) in their daily diet. Mazuri® Primate Diets contain a stabilized form of vitamin C that is stable under appropriate storage conditions for at least 1 year from the date of manufacturing printed on the bag.

Vitamin D ₃ (added), IU/kg.....	3,325
Vitamin E, IU/kg.....	270
Vitamin K (as menadione), ppm.....	2.3
Beta-carotene, ppm.....	1.8

Storage Conditions

For best results, store contents of open bag in container with sealing lid. Store in a cool (75°F or colder), dry (approximately 50% RH) location. Use within 1 year of bag manufacturing.

¹ Based on the latest ingredient analysis information. Since nutrient composition of ingredients varies, analyses will vary accordingly.

² Calculated from NRC of Non-Human Primates, (2nd ed., 2003).

* Naturally occurring sugars not included in calculation.
