

Mazuri® New World Primate Biscuit  
(Available at [www.mazuri.com](http://www.mazuri.com) or through a Mazuri® retailer.)  
Formula Code – 5MA5

### Description

Mazuri® New World Primate Biscuit is a highly nutritious, palatable concentrate that is specially formulated for the small species of New World monkeys in all life stages.

### Features and Benefits

- **Designed to be fed with supplementation** - Allows for natural feeding behaviors by the addition of species-appropriate food items.
- **Meets NRC recommendations for all nutrients** - Except protein, sodium and chloride when fed at 50% of the diet.
- **No added sucrose** - May maintain dental health.
- **Contains DentaGuard** - May reduce the occurrence of dental calculi.
- **Natural source vitamin E and stabilized vitamin C** - More bioavailable forms of these nutrients.
- **Contains taurine.**

### Product Form

Extruded biscuit: ¼" diameter x 1" length.

- 25 lb. net weight paper sack

### Catalog #

0007320

### Guaranteed Analysis

Crude protein not less than .....	22.0%
Crude fat not less than .....	9.0%
Crude fiber not more than .....	4.0%
Moisture not more than .....	12.0%
Ash not more than .....	8.0%

### Ingredients

Dehulled soybean meal, ground corn, wheat middlings, ground wheat, dried egg product, fructose, soybean oil, wheat germ, dried whey, dried beet pulp, calcium carbonate, corn gluten meal, brewers dried yeast, casein, dehydrated alfalfa meal, wheat bran, sodium hexametaphosphate (DentaGuard), l-ascorbyl-2-polyphosphate (stabilized vitamin C), folic acid, natural flavor, taurine, pyridoxine hydrochloride, salt, cholecalciferol (form of vitamin D<sub>3</sub>), dl-methionine, choline chloride, iron proteinate, zinc proteinate, manganese proteinate, d-alpha tocopheryl acetate (form of vitamin E), calcium pantothenate, vitamin A acetate, preserved with mixed tocopherols, l-lysine, menadione sodium bisulfite complex (source of vitamin K), biotin, rosemary extract, citric acid (a preservative), thiamine mononitrate, vitamin B<sub>12</sub> supplement, riboflavin supplement, nicotinic acid, copper proteinate, cobalt proteinate, ethylenediamine dihydroiodide, sodium selenite.

### Feeding Directions

- Mazuri® New World Primate Biscuit is designed to be an essential part of a total primate feeding system and may be used in conjunction with all other Mazuri® primate products.
- Primates generally consume about 2% to 4% of their body weight in food each day on a dry matter basis (i.e., a 50 kg animal will eat 1 to 2 kg of food per day, on a dry matter basis).
  - Mazuri® New World Primate Biscuit can be supplemented with fresh vegetables and fruit if this is desired to provide variety in the diet, as long as the dry matter of these items does not exceed 50% of the dry matter consumption. Using typical produce and browse, a feeding program on an "as fed" basis would consist of 60% produce/browse and 40% Mazuri® primate products (i.e., a diet may be 6 lb. of produce/browse plus 4 lb. of one or a mix of Mazuri® primate products).
- The amount of diet the animal requires will vary according to its age, size, life stage, health status and activity of the animal and the environmental temperature.
  - Adjust daily feed intake based on the health status, body condition and nutrient level desired to meet the needs of your primates.
  - Diet may be soaked to soften the biscuits for infants or animals that have difficulty chewing.
- Fresh, clean water should be available at all times.
- Primates require ascorbic acid (vitamin C) in their daily diet. Mazuri® Primate Diets contain a stabilized form of vitamin C that is stable under appropriate storage conditions for at least 1 year from the date of manufacturing printed on the bag.

Copper, ppm.....	37
Cobalt, ppm.....	0.78
Iodine, ppm.....	2.3
Selenium (added), ppm.....	0.30
Chromium (added), ppm.....	<0.01

### VITAMINS

Thiamin, ppm.....	16
Riboflavin, ppm.....	13
Niacin, ppm.....	105
Pantothenic acid, ppm.....	66
Choline, ppm.....	1,265
Folic acid, ppm.....	38
Pyridoxine, ppm.....	15
Biotin, ppm.....	0.40
Ascorbic acid, ppm.....	950
Vitamin B <sub>12</sub> , µg/kg.....	65
Vitamin A, IU/kg.....	21,075
Vitamin D <sub>3</sub> , IU/kg.....	7,940
Vitamin E, IU/kg.....	285
Vitamin K (as menadione), ppm.....	3.0
Beta-carotene, ppm.....	1.4

## Storage Conditions

For best results, store contents of open bag in container with sealing lid. Store in a cool (75°F or colder), dry (approximately 50% RH) location. Use within 1 year of bag manufacturing.

\* Naturally occurring sugars not included in calculation.

<sup>1</sup> Based on the latest ingredient analysis information. Since nutrient composition of ingredients varies, analyses will vary accordingly.

<sup>2</sup> Calculated from NRC of Non-Human Primates, (2nd ed., 2003).
