

Llama Diet High Fiber, Coarse

Mazuri® Llama Diet High Fiber is a pelleted feed designed to provide nutrients in addition to that from pasture and forage.

Features and Benefits

- **Coarse feed (mix of pellets and grain)** – More suitable for some animals that eat quickly.
- **Added vitamin E and selenium** – Reduce or eliminate the need to supplement.
- **Reduced level of copper** – Especially designed for llamas.
- **Provides extra energy** – Maintain body weight and milk production.
- **Contains a highly available form of vitamin E.**

Product Form & Packaging

Catalog #0012992 | Textured feed | 5/32" pellet with grain | 50 lb. (22.67 kg) net weight paper w/poly bag

Guaranteed Analysis

Crude protein not less than	14.00%	Calcium not more than	0.90%
Crude fat not less than.....	1.50%	Phosphorus not less than	0.45%
Crude fiber not less than.....	14.00%	Salt not less than.....	0.35%
Crude fiber not more than.....	25.00%	Salt not more than.....	0.85%
Ash not more than	9.00%	Selenium not less than.....	1.33 ppm
Calcium not less than	0.40%	Selenium not more than.....	1.60 ppm

Ingredients

Ground Soybean Hulls, Wheat Middlings, Ground Corn, Dehulled Soybean Meal, Dehydrated Alfalfa Meal, Cane Molasses, Calcium Carbonate, Salt, Thiamine Mononitrate, DL-Alpha Tocopheryl Acetate (Form of Vitamin E), Cholecalciferol (form of Vitamin D3), Magnesium Oxide, Dicalcium Phosphate, Monocalcium Phosphate, Vitamin A Acetate, Zinc Sulfate, d-Alpha tocopheryl acetate (form of Vitamin E), Zinc Oxide, Manganese Sulfate, Manganous Oxide, Ferrous Carbonate, Copper Sulfate, Ferrous Sulfate, Sodium Selenite, Calcium Iodate, Potassium Iodide, Cobalt Carbonate, Sodium Molybdate.

Feeding Directions

- Feed to llamas as a supplement to available forage and roughage.
 - Animals generally should be fed between 0.5 – 1.0 lbs. of diet per 100 lbs. of body weight, depending on the animals' body condition and physiological life stage.
- Always provide plenty of fresh, clean water. Thoroughly wash feed and water bowls on a regular basis. It is always good practice to wash hands thoroughly after feeding and/or handling animals.
- This diet is not for human consumption.

Contains more than 15 ppm copper – If using for sheep species, ensure to balance the complete diet for total copper intake.

Caution: Follow label directions: Feeding added selenium at levels in excess of 0.3 ppm in total diet is prohibited.

Storage Conditions

For best results, reseal the bag between uses or store contents of open paper sack in container with sealing lid. Store in a cool (75°F/24°C or colder), dry (approximately 50% RH) location free from rodents and insects. Do not offer moldy or insect-infested feed to animals as it may result in illness, performance loss or death. Freezing will not harm the diet and may extend freshness. Use within 1 year of bag manufacturing or "Best if Used By" date.
