

Safari Puff Diet

Mazuri® Safari Puff Diet was designed for feeding exotic herbivores managed under human care.

Features and Benefits

- **Extruded diet** – Lower density compared to pelleted feed.
 - Great for a less calorie-dense option for hoofstock guest feeding opportunities or for training rewards.
- **Multiple fiber sources** – Provides energy and promotes a healthy rumen.
- **Contains added vitamin E.**
- **Contains added probiotics** – Supports GI health.
- **Contains amino-acid complexed trace minerals** – For improved mineral bioavailability.

Product Form & Packaging

Extruded Particle | 1/2" round particle

- **Catalog #3007074-704** | 33 lb. (14.96 kg) poly woven bag
- **Catalog #3007074-701** | Bulk

Guaranteed Analysis

Crude protein not less than	12.00%	Moisture not more than.....	12.00%
Crude fat not less than	3.00%	Ash not more than.....	8.90%
Crude fiber not more than.....	33.00%		

Ingredients

Ground Soybean Hulls, Wheat Middlings, Ground Wheat, Dehydrated Alfalfa Meal, Cane Molasses, Dehulled Soybean Meal, Dried Plain Beet Pulp, Calcium Carbonate, Soybean Oil, Salt, Dicalcium Phosphate, Magnesium Sulfate, Potassium Sulfate, Choline Chloride, DL-Alpha Tocopheryl Acetate (Vitamin E), Cholecalciferol (Vitamin D3), Zinc Amino Acid Complex, Calcium Pantothenate, Manganese Amino Acid Complex, Vitamin A Acetate, Copper Sulfate, Copper Amino Acid Complex, Cobalt Glucoheptonate, Zinc Oxide, Thiamine Mononitrate, Riboflavin-5-Phosphate, Vitamin B12 Supplement, Manganous Oxide, Nicotinic Acid, Ferrous Carbonate, Zinc Sulfate, Calcium Iodate, Sodium Selenite, Biotin, Cobalt Carbonate.

Feeding Directions

- May be used for guest feeding opportunities or fed as up to 50% of daily food intake when grass, hay, and/or browse are available.
- Animals generally should be fed 1 – 3% of body weight in total food intake per day.
 - The amount of diet the animal requires will vary according to its species, age, size, life stage, health status, and activity level as well as management and the environmental temperature.
- Always provide plenty of fresh, clean water.
- Thoroughly wash feed and water bowls on a regular basis. It is always good practice to wash hands thoroughly after feeding and/or handling animals.
- This diet is not for human consumption.

CONTAINS MORE THAN 15 PPM COPPER – IF USING FOR SHEEP SPECIES, ENSURE TO BALANCE THE COMPLETE DIET FOR TOTAL COPPER INTAKE.

Storage Conditions

For best results, reseal the bag between uses or store contents of open paper sack in container with sealing lid. Store in a cool (75°F/24°C or colder), dry (approximately 50% RH) location free from rodents and insects. Do not offer moldy or insect-infested feed to animals as it may result in illness, performance loss or death. Freezing will not harm the diet and may extend freshness. Use within 1 year of bag manufacturing or "Best if Used By" date.
