Feeding Directions

- **Feed mini pigs between 1-2% of their body weight daily.** The feeding amounts are guidelines and should be adjusted based on the mini pig's body condition, activity level, other foods offered, environmental temperatures, and social structure. Feed twice per day.
- **Grass, hay or produce** may be beneficial for more mature mini pigs to help keep them feeling full but is not necessary in the diet and should not consist of more than 40% of the diet.
- **Gestation and lactation:** Transition to 50% Mazuri® Mini Pig Active Adult and 50% Mazuri® Mini Pig Youth. For higher energy requirements, as in the case of large litter size or multiple breedings, increase Youth to 60% of daily intake.

Storage Conditions

For best results, reseal the bag between uses or store contents of open sack in container with sealing lid. Store in a cool (75°F/24°C or colder), dry (approximately 50% RH) location free from rodents and insects. Do not offer moldy or insect-infested feed to animals as it may result in illness, performance loss or death. Freezing will not harm the diet and may extend freshness. Use within 1 year of bag manufacturing or "Best if Used By" date.
