Feeding Directions

- Feed free-choice to kangaroos and wallabies of all ages, starting with Joeys out of the pouch around 8 ½ months.
 - Adult animals can be expected to consume between 1% and 2% of their body weight depending on their physiological state and level of activity.
 - Bottle-feeding Joey's: introduce slowly into the Joey's diet once solid foods are being consumed.
- Provide pasture or high quality hay - preferably grass hay - free choice.
 - Alfalfa hay is not recommended as the calcium:phosphorus balance is not appropriate.

Caution - Follow label directions: Feeding added selenium at levels in excess of 0.3ppm in the total diet is prohibited.

Storage Conditions

For best results, store contents of open bag in container with sealing lid. Store in a cool (75°F or colder), dry (approximately 50% RH) location. Freezing will not harm the diet and may extend freshness. Use within 1 year of bag manufacturing.

¹ Based on the latest ingredient analysis information. Since nutrient composition of ingredients varies, analyses will vary accordingly.

² Calculated using adjusted Atwaters factors - 4 kcal/g carbohydrate, 9 kcal/g fat, 4 kcal/g protein.
